

## DATA SHARING AGREEMENT

The Pharmaceutical Supply Chain Initiative (PSCI) is a group of pharmaceutical companies who share a vision of better social, economic and environmental outcomes for all those involved in the pharmaceutical supply chain. This vision is detailed in the [PSCI Principles](#) and includes improved conditions for workers, economic development and a cleaner environment for local communities. Please go to the PSCI website to find out more about the initiative: <http://www.pscinitiative.org>

The members of the PSCI recognize the burden that multiple information requests and audits create for your company. To reduce this burden, we have created standard protocols and tools to assess suppliers' alignment with our Principles and we have set up a platform for sharing completed questionnaires, audit reports and corrective action plans.

Therefore, we ask for your permission to share the following documents with members of the PSCI via our platform. Please select the document(s) that you agree to share with our members:

- ☐ Completed PSCI Self-Assessment Questionnaire (SAQ)
- ☐ PSCI Audit Report
- ☐ Corrective Action Plans

You can share these documents with all existing and future PSCI members, or you can select specific members.

- ☐ All existing and future PSCI members **(we strongly RECOMMEND this option as it adds the biggest value for all parties involved)**

If you would like to restrict distribution, please select the companies that you agree to share with from the list of PSCI members below (the list is continued on the next page):
