150+ Countries

200+ Offices

6,000+ Consultants

As a board member of Inogen Alliance
Anew Global Consulting delivers consulting
services to clients through our in-house teams
and in collaboration with trusted global partners
across the Alliance network.

Our Mission

Our 4 Pillars of Services

Environment, Health & Safety Management

We support businesses with comprehensive assessments, audits, and training programs to ensure regulatory compliance and foster safe, healthy workplaces.

Our tailored solutions **enhance operational efficiency** while safeguarding employees and surrounding ecosystems.

Sustainability

We guide companies toward resilient growth by incorporating ESG principles, optimizing resource use, reducing waste, and implementing circular economy models.

Our support helps clients **meet sustainability targets, maintain regulatory compliance, and gain a market edge.**

Greenhouse Gas Reduction & Energy

We conduct GHG emission inventories and renewable energy studies to **help businesses lower emissions and energy costs effectively.** Our services include carbon reduction planning and energy efficiency assessments aligned with our clients' climate goals.

Environmental Technology & Engineering

We design and implement innovative systems for wastewater treatment, air pollution control, and other environmental infrastructure, leveraging the latest advancements in the field.

With extensive technical expertise and field experience, we provide full-cycle engineering services to **solve complex challenges and ensure reliable, sustainable outcomes.**
